Avg Daily Interactions

The daily average of interactions on the Instagram account (likes + posts) / days the account is being analysed.

Avg. Interactions per Post

Total interactions (likes + comments) received in tracked contents divided by the number of posts made.

Total Likes

Total sum of likes in publications during the period of the analysis.

Total Comments

Total sum of comments in publications during the period of the analysis.

Engagement Rate

$(\text{Engagement} / \text{Total number of posts}) / \text{Total Number of Followers} * 100.$

Total Posts

Total sum of publications during the period of the analysis.

Total Stories

Total sum of stories during the period of the analysis.

Followers Growth

Number of followers gained in the monitored period.

Influencer Score

Internal platform metric that evaluates accounts on a scale from 0 to 100, comparing various metrics like other accounts of similar size, such as audience quality, engagement, number of likes per 1000 followers, among other things.
